

I am now convinced that angels are among us, and that once again I have been witness to miracles being made. With the after school program now fully moved into the new buildings, the difference in atmosphere is so palpable that it feels as if we are covered in an invisible cloak of joy! Spacious classrooms, a place to run around, the room to grow... the happiness is so abundant it seems to permeate everything we do.

Up until now, despite all of our achievements, I have felt as though we were working at far less than our potential; now it is clear that we have the ability to do things we haven't even dreamed of accomplishing. I am absolutely floored by the outpouring of generosity from all over the country in response to this capital campaign, and I am grateful to feel that you believe as strongly I do that this is our time to grow. We owe our newfound happiness to you: we couldn't be where we are without your kindness and support.

We thank you from the bottom of ALL of our hearts.

In love and gratitude,
Julie and everyone at Education and Hope
